Certificate 26103106; registered 2026-10-31; surveillance/expiry 2027-10-30; recertification 2029-10-30.

ISO 45001:2018 — Occupational Health & Safety Management System
Certificate 26103107; registered 2026-10-31; surveillance/expiry 2027-10-30; recertification 2029-10-30.

Certification body: A-MARK Ratings Private Limited. UAF accreditation CB-MS-3117. Validity is subject to successful surveillance.

Certified scope

Provision of industrial dust removal and cleaning services, including internal high-level cleaning, industrial vacuum extraction, ATEX Zone 22 cleaning for hazardous dust environments, and external gutter and downpipe cleaning using ground-operated systems.

The certified scope covers industrial dust removal and cleaning services, not certification of extraction-system design/installation or equipment supply.

Procurement enquiries

Certificates, company registration and applicable project documentation are available on request. Submit your scope, site location and required response date at https://dustech.sa/procurement.
